Limited Lifetime Warranty for the original retail (commercial/civilian) purchaser, one year for law enforcement and military customers. Warranty and service by FIME Group LLC. Ships with (2) 15-round mags, Hard Polymer Case, Cable Padlock, Operating Manual.

In partnership with FIME Group of Las Vegas, NV, Arex is emerging into the US market with its highly acclaimed Rex Zero 1 pistol line. Having a dedicated, creative, and experienced team and a vision for excellence, Arex is determined to become one of the staples in sport, tactical shooting, and self-defense markets, as well as a trusted brand name for military and law enforcement agencies around the world. Adding to the well-established Rex Zero 1 line, the Nickel Plated model continues the new additions of quality products Arex has become known for.

The Rex Zero 1CP (REXZERO1CP-(TBD)) (compact) is a 15-round, 3.85" barreled 9mm pistol with several unique features:

- Can be operated either "cocked & locked" or safely de-cocked for DA/SA operation. External safety operates in either configuration.
- Ambi- safety and magazine release.
- The slide-stop also serves as the de-cocker.
- Nickel Plated T7075 aluminum frame made from solid bar stock with steel locking block insert.
- Nickel Plated steel slide made from solid bar stock.
- Wood Grips available as accessory
- Forward cocking serrations.
- 1 piece cold hammer forged barrel made from solid bar stock and Nickel Plated.
- Loaded chamber indicator.
- Full length slide rails.
- Picatinny railed dust cover.
- Large trigger guard for use with gloves.
- High profile white dot steel sights.
- Backstrap serrations cut shallow for tighter grip.
